POWERCEMS100: CERTIFIED QUALITY – SIMPLE INSTALLATION AND OPERATION

The PowerCEMS100 power plant analyzer system is the modular solution in the portfolio for customized analyzer systems. PowerCEMS100 meets all relevant standards and legal requirements for continuous emission monitoring systems and is certified according to EN-15267. During the development the top priority is placed on user-friendliness and low maintenance effort. This is reflected in the modular system structure and in the control elements in the analyzer cabinet.

Minimal spatial requirements – can be installed anywhere

The analyzer cabinet is 2100 mm high, 800 mm wide and 600 mm deep. PowerCEMS100 can easily be integrated into existing analyzer rooms. The cabinet is made of rugged steel with corrosion protection paint and meets enclosure rating IP 54. If the ambient temperature exceeds 40 °C, an air conditions can be attached optionally, to protect the electronic components from overheating and thus create reliable working conditions for the system. The PowerCEMS100 can also be delivered with a GFK cabinet for setting up outside or in aggressive environmental conditions.

GMS800 – the core of the PowerCEMS100

The modular gas analyzer GMS800 measures IR absorbing gases, such as CO, NO or oxygen. With the UV analyzer DEFOR it is possible to implement the measurement of SO₂, NO and NO₂ without converter. According to its certification the GMS800 has a maintenance interval of up to 6 months. That means more time for the analysis and less downtime due to adjustment or maintenance work.

Multilingual – it is easy to communicate with the PowerCEMS100

The device is operated by the control unit BCU (Basic Control Unit) installed in the cabinet door. Clearly structured operator menus and the integrated keyboard facilitate work with the PowerCEMS100. The following menu languages are standard for selection: German, English, French, Spanish, Dutch, Swedish, Italian and Polish. This means that important functions can be performed in the respective language of the operator and parameters set easily corresponding to the requirements on site.

The user friendly control unit (BCU) makes working with the PowerCEMS100 easier.

As the core of the PowerCEMS100, the modular gas analyzer GMS800 measures IR absorbing gases, such as CO, NO or oxygen.

EFFICIENT SYSTEM FOR CONTINUOUS EMISSION MONITORING IN POWER PLANTS

Product description

The PowerCEMS100 modular analyzer system is an economic and technically perfect solution for extractive measuring tasks. The fully configurable design of the complete system with high quality standard sub-assemblies and components allows the equipment to be customized to provide the ideal solution for prevailing requirements. Retrofitting

with analyzer modules or gas conditioners is easy and inexpensive. The innovative PowerCEMS100 system is certified according to European standards EN 15267-1/3 and EN 14181. It provides solutions for emission measurement and process applications that are fit for the future.

At a glance

- Cold-extractive analyzer system certified according to EN 15267 and EN 14181
- Plug-and-play analyzer module with 24 V power supply
- Control unit for displaying all measured values and status information on a monitor
- External sensors can be connected via interfaces

Your benefits

- Your investment is secure, as the system can be adapted easily to meet future needs
- Easy commissioning and trouble-free on-site approval of the measuring system by the relevant authorities
- Easy service due to clear separation of the electrical system and the analyzer component
- Easy and quick module replacement for high availability with CAN bus technology

For more information, simply visit the above link to obtain direct access to technical data, CAD design models, operating instructions, software, application examples, and much more.

Fields of application

- Emission monitoring for plants with lignite or hard coal firing
- Emission monitoring for gas-fired power plants, gas turbines, or combined cycle plants
- Emission monitoring for small and medium boilers
- Measurement of greenhouse gases

Detailed technical data

The exact device specifications and performance data of the product may deviate from the information provided here, and depend on the application in which the product is being used and the relevant customer specifications.

PowerCEMS100 system

Measured values	CH ₄ , CO, CO ₂ , NO, NO ₂ , N ₂ O, O ₂ , SO ₂ , other components on request
Measuring method	Extractive measurement
Gas flow rate	60 l/h With bypass pump: ≤ 250 l/h For short response times
Process temperature	≤ +1,000 °C Depending on sampling probe
Sample gas temperature	≤ +200 °C Temperature at cabinet inlet
Process gas humidity	Non-condensing
Ambient temperature	+5 °C ... +40 °C With cooling device: +5 °C ... +50 °C
Storage temperature	-20 °C ... +55 °C
Ambient humidity	≤ 75 % Relative humidity; non-condensing
Conformities	Approved for plants requiring approval 2001/80/EC (13. BImSchV) 2000/76/EC (17. BImSchV) EN 15267 EN 14181
Electrical safety	CE
Enclosure rating	IP 54 With cooling device: IP 44
Analog outputs	4 outputs: 0/2/4 ... 20 mA, 500 Ω Electrically isolated
Analog inputs	2 inputs: 0/4 ... 20 mA, 100 Ω Not electrically isolated
Digital outputs	8 potential-free outputs (change-over contacts): 34 V AC, 500 mA / 48 V DC, 500 mA Max. number of outputs depends on application
Digital inputs	8 inputs: 42 V Max. number of inputs depends on application
Interfaces	RS-422 (option) RS-485 (option) Ethernet TCP/IP
Bus protocol	Modbus TCP OPC CAN
Model	Steel sheet cabinet Versions with NO _x -converter (option) Versions with cooling or heating device (option)
Weight	250 kg ... 350 kg Depending on version
Mounting	Indoor, with protection against corrosive atmospheres

Power supply	Depending on version
Corrective functions	Manual adjustment with test gases Automatic testing and adjustment with test gases
Options	NO _x -converter Cooling device Heating Bypass pump

Our regional sales organization will help you to select the optimum device configuration.

REGISTER AT WWW.SICK.COM TODAY AND ENJOY ALL THE BENEFITS

- ✔ Select products, accessories, documentation and software quickly and easily.
- ✔ Create, save and share personalized wish lists.
- ✔ View the net price and date of delivery for every product.
- ✔ Requests for quotation, ordering and delivery tracking made easy.
- ✔ Overview of all quotations and orders.
- ✔ Direct ordering: submit even very complex orders in moments.
- ✔ View the status of quotations and orders at any time. Receive e-mail notifications of status changes.
- ✔ Easily repeat previous orders.
- ✔ Conveniently export quotations and orders to work with your systems.

SERVICES FOR MACHINES AND SYSTEMS: SICK LifeTime Services

Our comprehensive and versatile LifeTime Services are the perfect addition to the comprehensive range of products from SICK. The services range from product-independent consulting to traditional product services.

- 
Consulting and design
 Safe and professional
- 
Product and system support
 Reliable, fast and on-site
- 
Verification and optimization
 Safe and regularly inspected
- 
Upgrade and retrofits
 Easy, safe and economical
- 
Training and education
 Practical, focused and professional

SICK AT A GLANCE

SICK is a leading manufacturer of intelligent sensors and sensor solutions for industrial applications. With more than 7,400 employees and over 50 subsidiaries and equity investments as well as numerous representative offices worldwide, we are always close to our customers. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in various industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services round out our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”

Worldwide presence:

Australia, Austria, Belgium, Brazil, Canada, Chile, China, Czech Republic, Denmark, Finland, France, Germany, Great Britain, Hungary, India, Israel, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Norway, Poland, Romania, Russia, Singapore, Slovakia, Slovenia, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey, United Arab Emirates, USA, Vietnam.
